Chapter 11 Importing and Downloading

Importing is one of the timesaving feat res of Standard & Poor's Research Insight. Yo can se the Task Sched ler to import or download files d ring yo r off-ho rs and optimize the time yo spend at the office.

Yo can also incorporate yo r own data, companies and concepts into Research Insight directly from any application that can create a delimited ASCII file.

This chapter shows yo how to

- se the Task Sched ler
- import data into Research Insight
- import sets into Research Insight
- import concepts into Research Insight

Using the Task Scheduler

Note: For network sers. Only Network Administrators sho ld se this feat re. For f rther network sage recommendations, please refer to "Sharing Databases on a Network" in *Standard & Poor's Research Insight Beyond Basics* man al.

Yo will see the Sched le Import dialog box.

4. Select User Data, User Sets or Economic Data from the Define Import area.

Hint: Click the **Browse** b tton and select the drive and directory where the file is stored. This information will be reported in the so rce field.

5. Click the **Text Options** b tton. Yo will see the Text Options dialog box.

Text Options	? ×
Column Delimiter Column Delimiter Cogmma Cogma Space Cogmicolon Cogetom	OK Cancel Help
Use Labels	

6. Select the col mn delimiter type sed in the import file and click **OK**. The col mn delimiters are as follows:

Tab	Delimits col mns with tabs.
Comma	Delimits col mns with commas.
Space	Delimits col mns with spaces.
Semicolon	Delimits col mns with semicolons.
Custom	Delimits col mns with a c stom character.
Use Quotes	Encloses text with q otes.
Use Labels	Incl des labels at the top of each col mn.
Fixed Field	Delimits col mns with a specified n mber of spaces. Enter the n mber
	of spaces yo want yo r col mns separated by in the text box.

Hint: If yo select the **Use Labels** option, Research Insight will incl de labels at the top of each col mn in a table report, b t not in a free-form report.

- 7. If yo like, enter a description of yo r file in the **Description** field.
- 8. Sched le yo r import. Select either Now, One Time, Upon New Data File or **Periodically** from the Sched le area of the Sched le Import dialog box.

Now	Research Insight will import yor file as soon as yo close the Task Sched ler.
One Time	Research Insight will import yo r file at a specific date and time. Once yo select this option, yo will be able to select the date and time yo want yo r file imported.
Upon New Data File	At start p, Research Insight will look for a more c rrent data file compared to the date of the file at set p time, or compared to the last data file imported. Once yo select this option, yo will be able to specify the time that yo want Research Insight to begin searching for a new file.
Periodically	Research Insight will import yor file either daily, weekly, or monthly at a specific time. Once yo select this option, yo will be able to sched le the time yo of day yo want yor file imported and the date yo want the import to begin.

9. When yo are satisfied with yo r selections, click **OK**.

Yo will ret rn to the Task Sched ler dialog box. The import in alphabetical order in the list of Sched led Tasks.

- **Hint:** When yo sched le m ltiple tasks, Research Insight will imporder of the time sched led, regardless of the length of time For example, if yo sched le one import at 11:00 p.m. and the first import takes 20 min tes, Research Insight will importimed at the first task is finished.
- 10. When yo are finished sched ling imports, close the Task Sch
- **Important:** In order to import data, Research Insight m st be r 1 Research Insight if yo have an import sched led.

Changing the Import Schedule

From time to time, yo may want to alter the import sched le previo sly established. Research Insight makes changing this sched le a simple process.

Begin from the Research Insight desktop.

1. From the Tools men , select Task Scheduler.

Yo will see the Task Sched ler dialog box.

	쉽 Task Scheduler							
I	New Task	Activate/	Suspend	Update Task	Delete Task	View Log	Help	
	Status	Task	Source	Time of	f Scheduled Task	Description	n	
	Active Active			81.txt 10:13 38.txt 10:13	7 am Periodio 7 am Periodio			

2. Highlight the task yo want to change and click the **Update Task** b tton. Yo 'll see the Sched' le Import dialog box.

- 3. Make yo r changes to the import sched le and click **OK**. Yo will ret rn to the Task Sched ler dialog box. The import yo j st resched led will appear in alphabetical order in the list of Sched led Tasks.
- 4. When yo are finished sched ling imports, close the Task Sched ler dialog box.

Important: Research Insight m st be r nning in order to import data.

Scheduling an Internet Download

Research Insight makes it easy for yo to sched le a download for f ndamental and Val e Added data from the Internet.

Begin from the Research Insight desktop.

- 1. From the **Tools** men, select **Task Scheduler**. Yo will see the Task Sched ler dialog box.
- Click the New Task b tton.
 Yo will see the New Sched le Entry dialog box.

New Schedule Entry	? ×
Schedule Type-	OK
	Cancel
Internet Download	Help

 Click the Internet Download radio b tton and click OK. Yo will see the Sched le Internet Download dialog box.

Daily Prices	Number of Days : 1	<u>K</u>
Fundamentals	All Days Needed : 🔽	 ∩andei
Value-Added Data	Full	
First Call Consensus	O Full O Differences	Help
First Call Revisions	O Full O Differences	Settings
Compustat Classic	C Full	
🗖 EVAntage	C Full	
chedule		
C Now	C One Time	Periodically

4. Select the file or files yo want to download from the File Types area. These files are described below.

Daily Prices	Contains market data s ch as daily prices, adj stment factors, common shares traded, and dividends per share.
Fundamentals	Contains f ndamental company information s ch as sales, net income and operating earnings per share. Also contains f ndamental financial data, per share data and ratios for the S&P indexes.
Value Added Data	The Val e Added database consolidates the sector, economic sector, non-active sector and Val e/Growth Indicator files. It also incl des IPO Date, Ind stry Sector Code–Historical, Economic Sector Code—Historical, Index F ndamentals, Insider Trading and Instit tional Ownership data items.

FIRST CALL	Contains two q arters and two fiscal years of FIRST CALL
Consensus	consens s earnings estimate data, expected report dates,
	consens s recommendations, f t re growth rates, earnings
	s rprise data, operating act al earnings, and P/E ratios.
FIRST CALL	Contains earnings estimate consens s trends and estimate
Revisions	revision moment m.
COMPUSTAT(Classic)	Contains non-restated, q arterly COMPUSTAT data
	as it was originally collected by Standard & Poor's.
EVAntage	Contains Stern Stewart's proprietary EVA model data.

5. Specify the n mber of days worth of data yo want to download or select the **All days** needed

opimate n mber of dath of datnecessetarecplemata yrs, tanmomeadel dawo leta.

FyllChiloyspwthobangds;wiclicktct

Establishing Your Internet Settings

In order to download data, yo need to have a connection to the Internet. The first time yo open the Sched le Internet Download dialog box, Research Insight will ask for yo r User Name and Password. Yo may also need to enter proxy settings, depending on whether yo access the Internet thro gh a firewall at yo r organization (check with yo r organization's Network Administrator).

The Internet Download Settings dialog box is shown below.

Changing the Internet Download Schedule

From time to time, yo may want to alter the Internet download sched le previo sly established.

Begin from the Research Insight desktop.

- 1. From the **Tools** men , select **Task Scheduler**. Yo will see the Task Sched ler dialog box.
- Highlight the task yo want to change and click the Update Task b tton. Yo will see the Sched le Internet Download dialog box.
- 3. Make yo r changes to the download sched le and click **OK**. Yo will ret rn to the Task Sched ler dialog box. The download yo j st sched led will appear in alphabetical order in the list of Sched led Tasks.
- 4. When yo are finished sched ling downloads, close the Task Sched ler dialog box.

Important: Research Insight m st be r nning in order to download data.

Suspending a Scheduled Task

When a task is s spended, all of the sched ling information is saved and can be activated again.

Begin from the Research Insight desktop.

- 1. From the **Tools** men, select **Task Scheduler**. Yo will see the Task Sched ler dialog box.
- 2. Highlight the task yo want to s spend and click the **Activate/Suspend** b tton. The Task Sched ler s spends the highlighted task from the list of sched led tasks. To activate this task again, simply highlight the task and click the **Activate/Suspend** b tton.
- 3. When yo are finished, close the Task Sched ler dialog box.

Deleting a Scheduled Task

Once yo decide that yo have no f rther need for a sched led task, yo can delete it from the list of sched led tasks.

Begin from the Research Insight desktop.

- From the **Tools** men , select **Task Scheduler**. Yo will see the Task Sched ler dialog box.
- 2. Highlight the task yo want to delete and click the **Delete Task** b tton. Research Insight asks if yo are s re yo want to delete the selected tasks.
- 3. Click Yes.
- The Task Sched ler deletes the highlighted task from the list of sched led tasks.
- 4. When yo are finished, close the Task Sched ler dialog box.

Viewing Import and Download Results

For yo r convenience, the Task Sched ler records all completed activities in a log file. This file shows yo information s ch as the name of the file imported or downloaded, and the date and time the import or download started and finished.

Begin from the Research Insight desktop.

- 1. From the **Tools** men, select **Task Scheduler**. Yo will see the Task Sched ler dialog box.
- 2. Click the **View Log** b tton. Yo will see the Sched le.log file.

					0							
<i>∎</i> ∦ S	CHED	ULE.LOG	à - Notepad									- [

Fin	ished	1										

3. When yo are finished viewing the import or download res lts, select **Exit** from the **File** men .

Yo will ret rn to the Task Sched ler dialog box.

4. When yo are finished, close the Task Sched ler dialog box.

Importing Your Own Data into Research Insight

Yo can se the importing feat re to incorporate data items and val es into Research Insight. This section shows yo how to import data from a delimited ASCII file into Research Insight.

There are three steps involved in importing yo r own data: creating yo r spreadsheet file, saving and importing the data from yo r spreadsheet file into Research Insight.

Importing Your Data

After creating a delimited ASCII file, yo are ready to import the data into Research Insight. The data yo import will be loaded into the write-to database. (For more information on writeto databases, see "Managing Yo r Databases" in *Standard and Poor's Research Insight Beyond Basics* man al.) The file yo are importing m st be closed before yo proceed.

Begin from the Research Insight desktop.

 From the File men , select Import. Yo will see the Import dialog box.

Import			? ×
Look in: 🖂	Research Insight	• E 🧭	
CSCHTS CSRPTS CSSCNS CSSETS DICTNRY Excel	GVRPTS GVSTRS GVSTRS GVSETS Styles TEMP UserData MBGook1.csv		
File <u>n</u> ame:	Book1.csv		<u>O</u> pen
Files of type:	Import File (*.txt;*.csv)	<u>*</u>	Cancel Lelp
	Import: © Data © Set	C Concepts	Text Options

- 2. Select the drive and folder where the file yo want to import is located.
- 3. Enter the name of the file yo want to import in the **File Name** field or select it from the list box.
- 4. Ens re that the **Data** radio b tton is selected.
- 5. Click **Open** to import the file.
- 6. Click **OK** when Research Insight *d* isplays a message asking yo to confirm that the file is comma separated.

If yo saved yo r spreadsheet as a comma separated file with the .csv extension (comma separated val es), Research Insight displays a message asking yo to confirm that the file is indeed comma separated. If so, click **OK**. If not, click **NO** and select the delimiter sed for the file.

A new window will briefly display an import progress bar, the write-to database, the type of retrieval key sed and the items being imported. Research Insight will tell yo when the processing is complete.

Hint: An import error file (import.err) is created if an import attempt is ns ccessf l. This file explains what needs to be corrected to import s ccessf lly.

Importing Sets Into Research Insight

This section shows yo how to import yo r own sets from an Excel spreadsheet into Research Insight. Sets imported into Research Insight m st be in a delimited file.

There are two steps involved in importing sets: creating yo r spreadsheet file and importing the set from yo r spreadsheet file into Research Insight.

Creating Your Spreadsheet

To create yo r spreadsheet file, open a new doc ment in Excel. Create the table header in the first row. The header m st contain a retrieval key, s ch as a ticker symbol. An example is shown below.

	А	В
1	Key	
2	Field	
3	Field	
4	Field	

Next, fill in the company identifiers in cell A2 and down.

	A	В
1	TIC	
2	IBM	
3	HWP	
4	DEC	

We recommend that yo save yo r file as a comma separated val es file (*.csv file). After saving yo r file, close yo r spreadsheet application. Yo are ready to import yo r set into Research Insight.

Importing Your Set

Once yo have completed yo r spreadsheet, yo are ready to import yo r set. The set yo import will be added to the write-to database.

Begin from the Research Insight desktop.

- 1. From the **File** men , select **Import**. Yo will see the Import *d* ialog box.
- 2. Select the drive and folder where the file yo want to import is located.
- 3. Enter the name of the file yo want to import in the **File Name** field or select it from the list box.
- 4. If yo want to import a file delimited by anything other than commas or tabs, click the **Text Options** b tton, select yo r col mn delimiter and click **OK**.
- 5. Ens re that the **Set** radio b tton is selected.

6. Click **Open** to import the file.

Research Insight displays a message asking yo to confirm that the file is a comma separated val es file. If so, click **OK**. If not, click **NO** and select the delimiter sed for the file.

The Set Type dialog box appears.

Set Type		? ×
Select Set Type: -	OK	
C Surrency	C <u>I</u> ssue C <u>B</u> usiness Segment C <u>G</u> eographic Areas	Cancel
		<u>H</u> elp

- 7. Select the type of set yo want to import. If yo r spreadsheet contains company ticker symbols, yo can still choose to import the companies as a B siness Segment set, geographic segment set or iss e set. The retrieval keys in the spreadsheet don't have to match the set type yo choose.
- 8. Click **OK**.

A window will briefly display an import progress bar, the write-to database, the type of retrieval key sed and the items being imported.

Hint: An import error file (import.err) is created if an import attempt is ns ccessf l. This file explains what needs to be corrected to import s ccessf lly.

The imported set appears on yo r screen in a spreadsheet format.

	A				
	TIC	Name			
1	A	AGILENT TECHNOLOGIES INC			
2	В	BARNES GROUP INC			
3	С	CITIGROUP INC			
4	D	DOMINION RESOURCES INC			
5	E	ENISPA -SPONADR			
6					

9. From the **File** men, select **Save** to save the file as a set. Yo will see the Save As dialog box.

Save As Save in: 🕞 CSSETS		- E	?× 2 4 60
Save	File <u>n</u> ame:	Set2.set	**************************************
Cancel	Save as type: Description:	Set Files (*.set)	a standard and stand
yEile Options	E Bead Only	C <u>A</u> l Company	ries 🖸 <u>C</u> urrent Compar

- 10. Enter the set name in the File Name text box.
- 11. Click Save. Yo r file is now saved as a set.

Importing Concepts Into Research Insight

This section shows yo how to import concepts into Research Insight. The Import feat re makes it easy to share yo r concepts with yo r colleag es. Yo can create concepts in Research Insight and export them so they can be imported back into another Research Insight system. The concepts yo import will be added to the write-to database.

Begin from the Research Insight Desktop.

- From the File men , select Import. Yo will see the Import dialog box.
- 2. Select the drive and folder where the file yo want to import is located.
- 3. Enter the name of the file yo want to import in the **File Name** field or select it from the list box.
- 4. If yo want to import a file delimited by anything other than commas or tabs, click the **Text Options** b tton, select yo r col mn delimiter and click **OK**.
- 5. Ens re that the **Concepts** radio b tton is selected.
- 6. Select the Concept radio b tton in the lower right corner and click **Open**. The Import Concepts dialog box appears.

- 7. Select the concepts yo want to import in the From list box and click Add.
- 8. Click Accept.

Research Insight informs yo when processing is complete.
